

Action taken report regarding
Effecting of 2 lakhs agricultural service connection

The Government of Tamil Nadu have announced that 2 lakh new pumpset connections would be extended to farmers whose applications are pending for more than 10 years.

Accordingly, TNEB has worked out the plans so as to ensure that the above scheme has been programmed to be implemented in four phases.

- | | | |
|-----------|---|--------------------------------------|
| I- Phase | - | 50,000 connections before 31.12.2010 |
| II- Phase | - | 50,000 connections before 31.03.2011 |
| III-Phase | - | 50,000 connections before 30.06.2011 |
| IV-Phase | - | 50,000 connections before 30.09.2011 |
2. The applications pending for more than 10 years are coming under Normal and RSFS Rs.10,000 category only.
 3. To implement this scheme and to effect power supply within the stipulated period, "Online"/"One pole special priority category" has been introduced which means that
 - (a) In the "Online service category", supply is effected, if the applicants well/bore well is situated within 30 meters from the existing 3 phase supply pole; and
 - (b). In the "One Pole category", supply is effected, if the applicants well/bore well is situated within 70 meters from the existing three phase supply pole. Cases involving insertion of poles/conversion also shall be considered under this category only.
 4. Already instructions have been issued to the field officials to inspect the applications registered upto 31.3.2000, in the first phase to identify all the eligible applicants and to effect supply under Online/One Pole category.

5. By the above methodology, it is hoped that the supply to 50,000 Nos. upto 31.12.2010 be effected and next 50,000 services will be effected totaling to 1,00,000 services before 31.3.2011.

6. The remaining 1,00,000 services will be taken up during 2011-12 and completed before 30.09.2011. as ordered by Government.

7. The Online/One pole special priority is going to implemented by the following methods.

a. Initially the applications registered upto 31.3.2000 is being released in each Division based on the registration seniority.

b. The applications are inspected and the eligible online/one pole applicants will be selected. The applications will be considered only if the Distribution Transformer capacity is adequate.

c. 30 days notices is being issued to the eligible applicants to produce necessary documents and to report readiness.

d. The applicant has to submit the necessary documents and to report readiness within 30 days. If required further 30 days time extension will be given. No further time extension will be granted.

e. If the applicant does not produce documents and to enter readiness within the stipulated time his case will not be considered under this special scheme. His application will be considered under normal priority as per registration seniority.

f. The applicant should produce following documents:

i. Latest Village Administrative Officer (VAO) Certificate stating the agricultural land and the Bore well/ well is owned by the applicant.

ii. Latest sketch showing the location of well/bore well issued by VAO.

iii. Chitta, Adangal

iv. Patta (or) Registered Sale Deed Document (Pathiram)

v. If the applicants, well/bore well is situated within 100 meters from the Government well/bore well, then necessary No Objection Certificate (NOC) is to be obtained from concerned Department.

vi. If the applicants well/bore well is situated near the river bed area, canal and project area then necessary NOC is to be obtained from the concerned Department.

vii. If the applicants case involves transportation of water through pipe lines, then necessary NOC is to be obtained from concerned Department and Private Owners.

g. The applicant has to procure new energy efficient pumpsets with the Star rating of 4 and above and approved by Bureau of Energy Efficiency (BEE)

h. After reporting readiness, necessary estimate will be prepared, sanctioned and service effected as per the readiness priority.

8. In the above scheme change of well is not permitted.

9. Change of SF No. due to resurvey shall be permitted as long as the well for which application given remains the same.

10. In cases where representations are received from the applicants stating that the well for which they had applied are situated in different SF No. as against the SF No. mentioned in the original applications and that SF No. was furnished wrongly by the Revenue authority in the applications, these applications may be considered under online/one pole extension scheme subject to the production of certificate from Revenue authorities to the effect that the well for which supply required now is the same as the one for which supply was preferred.

11. Name Transfer will be permitted as per existing instructions.

12. Shifting of service connection effected under the above scheme shall not be permitted for a period of three years from the date of service connection or till the date on which the applicant would have got the service connection under normal priority whichever is earlier.

13. It is requested to avail the above opportunity under the online/one pole priority scheme.
